

WEBINAR: March 19, 2026 | 1:00 pm

Still Us:
**Navigating
Intimacy and
Connection in
Dementia Care**

Join Dr. Angelica Catusco for an educational seminar on intimacy and dementia, designed specifically for spousal caregivers. This session will explore how dementia and aging-related changes can impact physical connection, communication, and relationship roles, and will offer compassionate, practical guidance grounded in occupational therapy practice. Caregivers will leave with reassurance, language, and strategies to navigate intimacy with dignity, safety, and connection.
